PROFESSIONAL SUMMARY

Results-driven Software Engineer with a Bachelor's degree in Computer Science and two years of experience as a Front-End Developer. Proficient in JavaScript, React, and Node.js, adept at building robust and scalable web applications.

EDUCATION

Bachelor's in Computer Science

SKILLS

JavaScript, React, Node.js

- Database Design & Management
- Cloud Platform Deployment
- CI/CD Pipeline Development
- Automated Testing
- System Design

EXPERIENCE

Front-end Developer, ABC Company (2 years)

Key Learnings:

- Developed strong proficiency in building scalable and maintainable user interfaces using modern front-end frameworks and component-based architectural patterns.
- Acquired practical experience in translating design specifications into highly functional and user-centric web applications, emphasizing usability and performance.
- Applied core software engineering principles, including modular design, version control, and testing methodologies, within an agile development environment.
